

Tomato and Pumpkin

This is Mutha and her mukul Bugulmana. Mutha says: "I want to eat some tomato and pumpkin."
[1]

Mukul gives her tomato and pumpkin seeds and tells her to plant them.
[2]

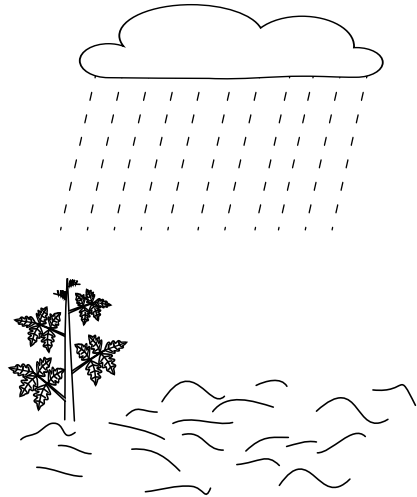

Mutha plants the seeds.

[3]

After a while, a tomato plant has grown, but no pumpkin.

[4]

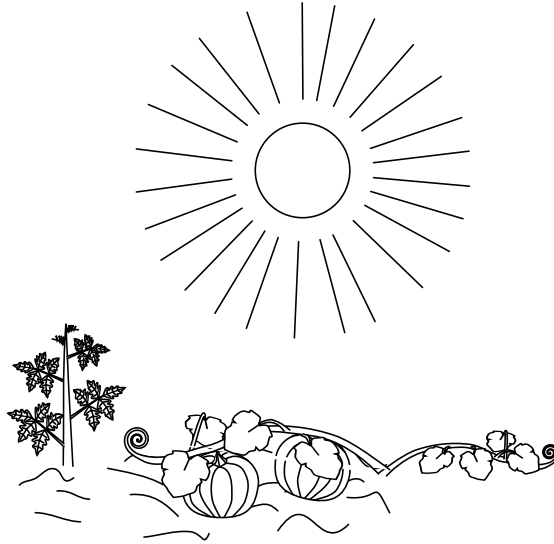

Then, there is rainfall.

[5]

Then, the pumpkin plant has also grown and it already bears pumpkins, but the tomato plant does not yet bear fruit.

[6]

Then the sun comes out and shines brightly.

[7]

After some time, the tomato plant also bears fruit. Mutha is happy.
